PROFILE

Full-stack software engineer with 4 years in the gaming and interactive industry, building player-facing web applications, APIs, and real-time systems end-to-end. Hands-on with React, TypeScript, Node.js, SQL/NoSQL databases, and CI/CD. M.Sc. in Software Engineering with a digital animation background, used to working closely with design, art, and product teams and to owning ambiguous features from breakdown to production.

KEY ACHIEVEMENTS

- **High-traffic gaming web platform** — Designed and built [BarriosLatinos](#), a mobile-first community platform for Latin American *Call of Duty: Mobile* players that reached **3M+ visitors** and **200,000+ registrations**.
- **Multiplayer at scale** — Led real-time/multiplayer backend development for [AXESS by AXE](#) (Unilever), a live branded game supporting **50,000+ concurrent players** and **400,000+ registered accounts**.
- **AI automation** — Delivered AI-powered workflows and end-user tools that automate data processing.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, C#, SQL

Frontend & Mobile: React, Vue, Tailwind, Three.js, Ionic, Flutter

Backend & APIs: Node.js, REST/HTTP APIs, Supabase Edge Functions, Webhooks, OAuth, real-time networking

Data: MySQL, Firebase, Supabase, SQL & NoSQL, migrations & optimization

Cloud & DevOps: Google Cloud (Firebase), Docker, GitHub Actions, CI/CD pipelines, Git

AI-Assisted Development: GitHub Copilot, Claude Code, code review of AI-generated changes

Games & Real-Time 3D: Unity, WebGL, A-Frame, AR

EXPERIENCE

Tech Lead | [Cool Nerdy People](#)

Oct 2025 – Present

- Lead hands-on, end-to-end development of BarriosLatinos (3M+ visitors) and other web, mobile, AR, and game products: frontend, backend, database design, infrastructure, and deployment.
- Run code reviews for the team and use GitHub Copilot and Claude Code daily, holding AI-generated code to the same architecture and reliability standards.
- Architect and manage cloud infrastructure and CI/CD pipelines for reliable, high-availability production services.

Fullstack / Unity Developer | [RCK Games](#)

Nov 2022 – Oct 2025

- Led real-time/multiplayer development for AXESS by AXE, architecting the networking layer behind 50,000+ concurrent players across 400,000+ registered accounts.
- Built player-facing games, web, and real-time 3D experiences with React, Three.js, Unity (C#), and Flutter.
- Bridged engineering, design, and art as technical artist, owning UI/UX, 3D scene composition, and asset handoff.
- Designed software architecture and built reusable internal tools and services that streamlined production.
- Administered SQL and NoSQL databases for production services.

Software Engineer | [Zero Copy Labs \(Contract, U.S.\)](#)

Nov 2024 – Jul 2025

- Worked in English with U.S.-based clients and teammates.
- Designed SaaS platform architecture; built and maintained web apps with React, Vue, and Node.js.
- Implemented APIs and webhooks for workflow automation; ran database migrations and optimizations.
- Built AI-powered workflows for automatic data processing, and hybrid mobile apps with Ionic.

EDUCATION

M.Sc. in Software Engineering & Computer Systems — UNIR, Spain

2024 – 2025

B.Eng. in Digital Animation — Universidad Anáhuac Mayab

2019 – 2023

LANGUAGES & CERTIFICATIONS

Languages: English (professional working proficiency) · Spanish (native)

Certifications: Web App Development & UX · Python Programming · Soft Skills & Management Skills
